November, 01, 2017

Dear Friends

For two consecutive years, we have been holding a campaign to raise funds for the purchase of Christmas grocery sets for internally displaced persons from the war zone, which are located in the city of Ivano-Frankivsk (Ukraine).

This project will help provide 200 families of IDPs with food and celebrate Christmas with gifts

200 families * \$20.00 = \$4000.00

Deadline project on December 15, 2017. This is due to the logistics of this project - the time for money transfer, the purchase of products, the sorting of products, etc.

The situation has developed so that all humanitarian aid goes to the eastern regions of Ukraine, and to those areas where IDPs are most affected.

A small part of the internally displaced persons was able to find themselves in new living conditions.

However, most, and this is almost 80% of the internally displaced people, could not overcome all difficulties of the new period.

Especially need such help families with children. Parents limit themselves for the purpose of buying sweets to a child, clothes, paying interest groups. Almost all income of the family of IDPs goes to rent of housing, utilities and food. The state has withdrawn from assistance and solving problems of this category of the population of Ukraine.

We encourage you to participate in this action. If you can not help financially - post this information on your pages on social networks.

Together - we are force.
