Grants

Organization	EUR	USD
ICCO/Kerkinactie (Netherlands) project	12218,00	-
US Embassy in Ukraine	-	6632.00
TOTAL	12218.00	6632.00

Our volunteers analyzed needs of many families and we may assure you that 90% of food packs were to provided to families which need them the most.

Each person who received the food pack filled in the form providing his personal number, telephone, address, his name, food which was included to pack and signed the papers that he in fact received the pack.

Packs were provided to IDPs registered not only in Ivano-Frankivsk city but also in Ivano-Frankivsk region.

Unfortunately, number of packs were limited and we were not able to provide help to large number of other IDPs in need. We hope to keep working with you to solve this problem.

Expenditure items for funds received in 2015:

Clause	amount of donation, equivalent in				
	USD	EUR	CHF	GBP	UAH
Food for IDPs in the camp for IDPs Lviv region	-	400,00	-	-	-
Purchase and distributing of food packs	100,00	100,00	500,00	589,00	-

Yereniuk Roman (Canada)	65,00	500,00	-
Total	26576,20	19200,00	51986,86

Humanitarian aid was distributed among IDPs in Lviv, Ivano-Frankivsk, and Lisichansk, Severodonetsk, Kremennaya (Luhansk area, zone conflict)

This year we will concentrate on working with IDPs in Ivano-Frankivsk and Lugansk regions.

IDPs problems:

For now only 10% of IDPs get support in Ivano-Frankivsk region. Most of them are those who live in special establishments for IDPs.

For the moment local authorities do not care about IDPs' needs, besides registering them and initial help. IDPs meet many problems, which can be solved by local authorities, though latter don't want to help

Social protection is quite problematic in Ivano-Frankivsk. IDPs have problems with places for children in kindergartens and get a lot of refusals for money support request. Besides, their rights are hardly protected.

Many IDPs feel uncomfortable at new place and they have psychological problems.

Unfortunately, for the moment only some of us understand how to solve IDPs' problems in Ukraine at local and state levels. The experience of other countries will be a good example for authorities. This stage is very important taking into account new parts of Constitution concerning decentralization of power.

For the moment IDPs in Ivano-Frankivsk don't even have an accommodation to gather and hold trainings and share their experience.

Parents of such children hardly have time to take care of their rehabilitation. They are searching for work and they almost have no free time to be with their family.

Constitution says each citizen can get land but local authorities don't really want to give it saying there is no IDPs' rights protection program at the state level.

Another problem is job search at new location. According to statistics almost half of population of Ivano-Frankivsk region works abroad because there is no well-paid jobs nearby. In our opinion we can solve this problem by training IDPs for new professions so that they could work as freelancers in IT sphere. Due to financial problems most of IDPs can't afford visiting such trainings.

For the 1st of January 2016 about 7000 of IDPs were registered in Ivano-Frankivsk region. Only two organizations help them. Most of society does not care about IDPs problems as well as local authorities which suffer lack of money and can't solve even local problems.

Category of IDPs	Ivano-Frankivsk city	Ivano-Frankivsk region
Children	1063	1135
Disabled persons	372	461
IDPs who can work	1273	2561
TOTAL	2708	4157
